

## Script for Table Topics Master

Fellow Toastmasters and Guests

Attempting Table Topics helps you to develop four skills:

- **Listening** – I will mention the topic only twice (The TTM may face the speaker once when giving the topic and the second time face the audience and mention the topic so they know what the speaker is responding to).
- **Thinking** – getting your points together.
- **Organizing** – the response would be a speech with a beginning, middle and end.
- **Delivery**

I urge every speaker to use the Word of the Day.

I request the Timer to give the Timing guidelines.

Thank you

After the last speaker has spoken, call for the Timer's report.

Then ask the audience to vote for the best table topic speaker.

You may then hand over control to the TMod.
